Cancer in the Body Politic

Diagnosis and Prescription for an America in Decline

by Peter D. Mott, M.D.

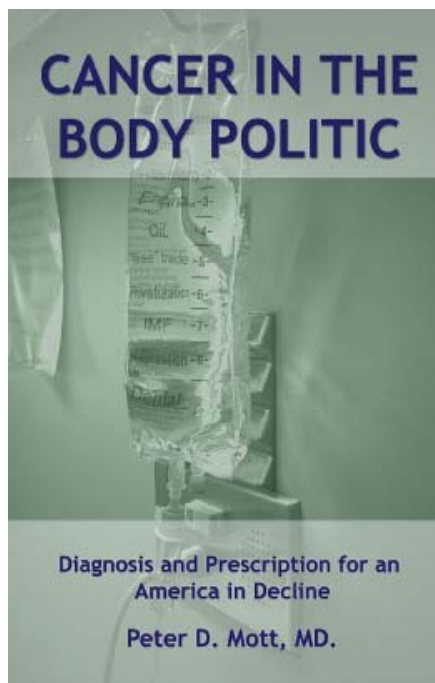

About Cancer in the Body Politic:

Peter Mott has brought together his life as a physician and his activism on behalf of human rights to give us what he calls a “diagnosis and prescription” for our nation, which badly needs both. This is a work of both fact and imagination, with a spiritual thread, a moral center, and it comes at a time in our history when we can use both common sense about the present and hope for the future.

- Howard Zinn, Professor Emeritus,
History, Boston University

This book is at once a diagnosis of the oncoming American tragedy by an experienced physician, and a call to — and prescription for — action from a long-time, highly knowledgeable activist. His first-hand experiences, notably in the United States and Latin America, deserve attention and, one hopes, will fuel discussions that help produce policies radically different from those of the recent past.

- Walter LaFeber, Author of America, Russia, and the Cold war, 1945-2006

TO ORDER: Contact EPICA at admin@epica.org or send this order form to:

EPICA, 1470 Irving Street NW, Washington DC 20010. Tel: 202/ 332-0292; Fax: 202/ 332-1184
